“ *Met daniel in early elementary and we hung out in a friend group til 7th grade until I moved and never really got in contact with him for a couple years until a month before his passing he texted me and we just start catching up with eachother. Getting the news was really sad, attended his funeral made it me more sad. Hope to see you again soon, miss you lil homie*

“ I was Daniel's 6th-grade math teacher. He was such a good kid. I remember once, I reprimanded him for being a bit too talkative in class and not paying attention. Initially, he got a bit "huffy" with me, but at the end of class, he came to apologize and said he was sorry for being rude. My daughter was saddened by his passing. He will be missed.
