“ We will truly miss Judi and her energetic ways, she talked about Sunni and Maggi her two dogs that were so close to her. Her and Tom came over here to Dundalk to visit Patricia and me for Christmas and we exchanged lovely gifts. Two things I remember that stick out in my mind we had a lawn ornament. It was a frog on an ornamental base and Judi fell in love with it. I gotta have that she yelled out. Well, to this day as far as I know it is in her front yard. Another time I remember she used our bathroom and came out and asked where did you get that toilet? It was a raised handicapped toilet with one flush it's gone! It is a Kohler and we are still using it. I don't know if my brother Tom ever got one for their bathroom, but I'll never forget how Judi loved it. This is a sad time for everyone esp. Tom. We wish him the deepest sympathy and Judi's family, too. She surely will be missed. May God Bless her and R.I.P. Judi From:

“ For over 20 years every year, we celebrated New Year's Eve dinner every year we would switch from my house to their house their house to my house and I remember the first time Judy had to make New Year's dinner. It was actually the best pork and sauerkraut. I ate in a long time, but she was so like making sure everything was perfect like the way we did it, you must've told her did we do this we do that because we always had it for years. We just Tommy and till Judy came along and how she loved her animals. Her dogs both of them she will be dearly missed

Judi did love her pork and sour kraut, we had it several times a year. I certainly will miss her delicious sour kraut. I really don't know how I will find the strength to keep on without her. She was indeed the rock I depended on. God Bless her soul...

Judy was a good person. She always was in good spirits when around me, I remember her as an energetic person who loved her dogs and could be funny and I will miss her for life will not be the same without her. She was the foundation that held love together in their relationship/home
