“ Tom Chandler, and indeed the entire family, were my patients for several decades. Thus I had an opportunity to know Tom during his years of active employment, retirement, and to follow him through his illness, and to observe the effect on the family, particularly his wife Betty, of all these life changes. I would like first to address the subject of Tom's life, character, and impact upon those of us who knew him. Tom was, like many men, reserved in his outward manner-but warm, friendly, and articulate with those whom he knew. He was gentle, but strong. He was kind, but once he made up his mind, he was determined and firm. He was a hard worker, loyal to his employer and family. He was a man's man-he loved outdoor sports, particularly hunting. He was brave and courageous in the face of a deadly disease, and fought it until the end, going along with every treatment which might help him. When the end finally came, he was able to face that too, serene in his faith and confident in his Lord's ability to get him through that as well. I liked Tom-as a person, as a man, as a patient. He was an example to all of us in how to handle the very rough road and critical challenges which life presents us. His family can be very proud of him. Secondly-the devotion and sincere love and compassion which his wife Betty showed during his illness was also a model for spouses. God bless and comfort her, and the entire family in the difficult days to come, and encourage us all with the certain knowledge that this life is not all there is.##imported-begin##Christian E. Jensen##imported-end##

“ Our sweet "Mr. Tom" was the most precious and beloved friend & neighbor we could ever have. For almost 30 years we watched him raise his children and love his grandchildren. He was a devoted father, avid hunter & fisherman and loved gardening. He will be greatly missed by so many people, but we know we shall see him again. May God comfort and bless Betty during this time. Love and prayers - Reg & Cath###imported-begin###Reg & Cathy Carter###imported-end###
